**Attachments:** NEEPHLD05\_24\_06.doc

I am sorry about not getting to this sooner and not getting back to Oscar sooner, as well, but I am new at this. Attached is a preliminary agenda, that I hope will be OK for use for travel approval. Also, Oscar, please review/revise/re-format to meet your needs vis a vis the environmental agenda items. The premise was that the QA people would meet separately as they had planned and then re-join a larger group after lunch for the discussion of interstate collaboration around specimen sharing and mutual support in an emergency.

As soon as I get some feedback, I will send to the whole mailing list.  
Thanks, Al

**Subject:** NEEPHLD Meeting

Good Morning,

I was wondering if an agenda had been prepared for the 5/24/06 NEEPHLD meeting in Concord. If so, could you please send me a copy?? Connecticut requires a copy of an agenda before they will approve any travel, and it takes a couple of weeks to get a travel approved.

Thanks for the help.
